

BOGGLE™

Boggle is a game where you connect letters (in sequence) to form words.

Letters may be adjacent or diagonal.

A letter may only be used 1 time in a word.

A word is 3 or more letters.

You may not use

Names, Abbreviations or Foreign Words.

Boggle Technology

- Open **WORD** (Start / Programs / Microsoft Office)
- Add your Name and Date to a header
 - (View Headers / Footers)
- Add a 3 column Table –
(Table – Inset - Table) 3 Columns and 10 Rows
- Highlight the 1st row:
 - Table – Merge Cells
 - Enter The Header “**BOGGLE**”
 - Enter Column Headings for 3,4 and 5+ letter words

BOGGLE		
3 Letter Words	4 Letter Words	5 & 6 Letter Words

Work Smart – Not Hard!

SORTING

- Type your words into the correct column
- Highlight the Column and Do...
- TABLE – SORT –
 - Check the “Header ROW”
 - Select **Options:** and select SORT COLUMN ONLY
 - Ascending (A→Z – Small to Large)
 - Descending (Z→ A : Large to Small)

You can also NUMBER the items in the columns with the FORMAT- Bullets and Numbering

Make One Table

- What if you were asked to make one list of all words (not caring if it is a 3, 4, 5+ letter word?)
- Copy/Cut the 2nd column and Paste it after the end of the table.
- Copy/Cut the 3rd Column and Paste it at the end of the table (APPEND).
- Delete Columns 2 and 3 from the 1st table
 - Table – Delete – Column
- Sort the new list of words
- Number the Words. Highlight the list.
 - Format – Bullets and Numbers - Numbers
